

KAILASH JOSHI

Ph. +1 (585) 623-9492 | kailashjoshi1104@gmail.com | website: kai-lash.github.io

SOFTWARE ENGINEERING QUALIFICATION

- Software Engineer with over six years of experience working on various Java and C# based projects
- Diverse experience in the domain of Human Resource, Payroll and Computer Networking
- Proven ability to contribute to different stages of the Software Development Life Cycle
- Quickly adapts to different programming tools and technologies and thereby reducing the learning curve
- Excellent troubleshooting skills, ability to analyse code and engineer cost-effective solutions
- Certified professional (SCJP, CCNA, MCTS) with in-depth knowledge of Object Oriented Programming

SOFTWARE ENGINEERING EXPERIENCE

Software Engineer, Mindex - Contracted to Paychex, Rochester, NY Feb 2017 - Present

- As a Solution Lead of the team, I am responsible for taking important application design decisions, mentoring new team members, and communicating with management and other teams.
- Currently, leading the project for refactoring and migrating a part of the legacy application code to Azure App Service which has resulted into the performance improvement by 200%
- Working alternatively on the of C# based time tracking application and Java based payroll application
- Implemented several features, bug fixes and enhancements with utmost quality, quick turnaround time and more than 90% unit test code coverage
- Own and maintain a Java-based service which links a payroll and time-keeping application
- Actively involved in the application release process and disaster recovery occurring every two weeks
- Technologies used: C#, Java, AngularJS, JavaScript, HTML5, SQL, Azure Cloud Computing

Software Developer Intern, DST Systems, Boston, MA Jun - Jul 2016

- Fixed minor, major and critical bugs and implemented new features of the software application
- Assisted the QA team to figure out the best approach to test certain kinds of bug fixes
- Languages used: Java, JavaScript, ColdFusion, CFScript, AngularJS

Software Engineer, Tech Mahindra Ltd., Mumbai, India May 2012 - Jul 2015

- Created Proof of concepts (POC) for the computer-network Java-based application software
- Refactored and optimized the data-loader module of the application by 40%
- Raised the application productivity by 5% by expanding the existing RESTful APIs and SOAP web-services
- Integrated application with VMware vCops APIs to facilitate network traffic analysis through vCops platform
- Languages used: Java, JSP, JavaScript, jQuery, C#, D3JS, Hibernate, ExtJS, VB.NET

TECHNICAL SKILLS (Ordered by level of proficiency)

Technologies: Java, C#, JavaScript, HTML5, jQuery, AngularJS

Tools: Eclipse, Visual Studio, SQL Management Studio, SVN, Git, WebStorm, JUnit, Jira, Jenkins, Maven

Databases/OS: MS SQL Server, MySQL, SQLite, Oracle, PostgreSQL, Windows (7, 8, 10), Linux

COMPUTER SCIENCE AND ENGINEERING EDUCATION

University of Rochester, Rochester, NY

Master of Science in Computer Science, GPA: 3.6/4

Aug 2015 - Dec 2016

Relevant Coursework: Programming Language Design, Data Science, Database Systems, Computer Security

Gujarat University, Ahmedabad, India

Bachelor of Engineering in Electronics and Communications, GPA: 3.92/4

Jul 2007 - Aug 2011
